#### Tender Offer for Securities of Advanced Information Technology Public Company Limited

(The offer price purchase period specified in this offer is final and will not be amended, except under the conditions specified in Clause 8.)

To Securities Holders of Advanced Information Technology Public Company Limited,

We, Turnkey Communication Services Public Company Limited ("TKC" or "Offeror"), hereby offer to purchase the securities of Advanced Information Technology Public Company Limited ("AIT" or "Business") through a Partial Voluntary Tender Offer ("Tender Offer" or "PVTO"), with the following details:

#### Part 1

#### Significant Elements of the Tender Offer

#### 1. Date of Submission of the Tender Offer

28 May 2025 ("Tender Offer Submission Date")

#### 2. Name of the Offeror

Turnkey Communication Services Public Company Limited ("TKC" or "the Offeror")

#### 3. Name of the Tender Offer Preparer

Siam Alpha Capital Company Limited ("Tender Offer Preparer")

#### 4. Objectives of the Tender Offer

As at the Tender Submission Date, TKC holds 382,567,471 ordinary shares in the Business, representing 24.90% of the total issued and paid-up shares and 24.90% of the total voting rights of the Business. The Offeror's objective is to enhance business cooperation to be more stable and stronger, aiming to create effective and sustainable relationships and enhance competitiveness in the market in various fields such

as innovation, service, and responsiveness to customer needs. In addition, the Offeror intends to rapidly expand target customers to both the public and private sectors to broaden its market reach and ensure growth in the long term. This is also to strengthen competitiveness and future profitability.

Besides, the Business is currently an associate company of the Offeror, and the Business has consistently generated net profits with stable growth in revenue and profit over the past several years. This reflects a strong operational capability and ability to adapt well to economic conditions.

In this regard, the Offeror sees an opportunity to increase investment in the Business to strengthen operations and expand competitive capabilities in a growing market. From additional investment, this help Offeror to recognize an increase in the share of profit from investment in the Business in proportion to the shareholding which enhances financial position and operational strength in the future. Furthermore, this also creates opportunities for joint business development with business leading to an improvement in operational efficiency and generating long-term value for both companies.

At the Board of Directors Meeting No. 1/2025 of TKC held on 14 February 2025, a resolution was passed approving the purchase of ordinary shares of AIT, an associate company of TKC, through a Partial Voluntary Tender Offer ("PVTO") from the existing shareholders of the business, in an amount not exceeding 153,641,557 shares, representing no more than 10.00% of AIT's total issued and paid-up shares.

#### 5. Type and Class of Securities under the Tender Offer

The Offeror will make a tender offer for only one type of security which is the ordinary share of the Business. As the Tender Offer Submission Date, the Business has a total of 1,536,415,572 issued and paid-up ordinary shares, with each ordinary share carrying one voting right.

As Tender Offer Submission Date, the Offeror holds 382,567,471 ordinary shares in the Business, representing 24.90% of the total issued and paid-up ordinary shares. The Offeror intends to make a partial tender offer for up to 153,641,557 ordinary shares from the existing shareholders of the Business, representing no more than 10% of the total issued and paid-up shares of the Business. If shareholders offer to sell more than 10% of the total issued and paid-up shares and total voting rights of the Business, the Offeror will purchase the shares on a pro-rata basis based on the number of shares tendered by the shareholder.

If the partial tender offer is successful, and the Offeror can purchase the maximum number of shares required which is 10% of the total issued and paid-up shares of the Business, the Offeror will hold no more than 34.90% of the total issued and paid-up shares of the Business after the transaction. However, after the successful completion of the partial tender offer, the total number of shares held by the Offeror

in the Business will not result in the offeror becoming a shareholder with voting rights exceeding 49.00% of the total voting rights of the Business.

As Tender Offer Submission Date, the Annual General Meeting of Shareholders 2025 via electronic media (E-AGM) of Business on 4 April 2025, resolution was passed to approve the tender offeror to make a partial tender offer for the Business's shares by no less than half of the total votes of the shareholders attending the meeting and having the right to vote. The resolution was approved by 87.8978% of the total votes of the shareholders attending the meeting and having the right to vote.

#### 6. Tender Offer Price

The Tender Offer Price for the ordinary shares is THB 5.20 per share ("Offer Price"). The shareholders tendering their ordinary shares ("Offeree") are subjected to a brokerage fee of 0.25% of the Offer Price and value added tax (VAT) of 7.00% of the brokerage fee. Therefore, the net proceeds to be received by the Offeree will be THB 5.18609 (Five Point One Eight Six Zero Nine Thai Baht) per share.

Such Offer Price is:

- ( / ) the final offer price which shall not be changed (unless conditions as stated in Clause 8 are met)
- ( ) not the final offer and the Offer Price may be changed by the Offeror

Pursuant to the Revenue Code of Thailand, capital gains from the sale of shares realized by a foreign juristic person will be subject to a 15.00% withholding tax which will be borne by the Offeree, unless exempted by an applicable double tax treaty. Withholding tax is calculated based on the capital gains from the sale of shares (the difference between the Offer Price and the original cost the Offeree had paid for such tendered shares). The Offeree must declare the original cost of such tender shares to the Tender Offer Agent by completing a Declaration Form for Cost of Tendered Shares in accordance with Attachment 1 or Declaration Form for Cost of Tendered Shares for NVDR in accordance with Attachment 3.

If the Offeree fails to declare such original cost to the Tender Offer Agent or does not submit proper evidence thereof, the Tender Offer Agent will determine the withholding tax based on the entire proceeds to be received by the Offeree.

<u>Note</u>: The Offeree, who is a Thai juristic person, shall be responsible for withholding tax at the rate of 3.00% of the brokerage fee and shall issue withholding tax certificate to the Tender Offer Agent.

#### 7. Tender Offer Period

The tender offer period is a total of 30 business days, from 4 June 2025 to 16 July 2025 on all business days of the Tender Offer Agent from 9:00 AM to 4:00 PM ("Offer Period"). whereby such the Offer Period is:

- [v] final offer period which shall not be extended. (Final Period) (except as per the conditions specified in Clause 8 Section 1)
- [ ] not the final offer period and may be extended by the Offeror.

In addition, if there is any announcement of additional financial institutions holiday during the Offer Period, the Offeror will extend the Offer Period until the Offer Period is comprised of 30 business days according to Tor Jor. 24/2551 Re: Rules, Conditions and Procedures for the Acquisition of Securities for Business Takeovers. ("The Notification of the Acquisition of Securities for Business Takeovers")

#### 8. Conditions for Amendments of the Tender Offer

- ( ) no conditions
- (✓) conditions of change in the tender offer are as follows:
  - ( $\checkmark$ ) the Offeror may reduce the Offer Price or extend the Offer Period in case there is any event which causes material adverse effect on the status or to the asset of the Business during the Offer Period; or
  - ( v ) the Offeror may change the Offer Price or extend the Offer Period to compete against any person who has submitted a tender offer for securities of the Business during the Offer Period.

#### 9. Conditions for Cancellation of the Tender Offer (if any)

The Offeror may cancel the Tender Offer upon the occurrence of one or more of the following events:

- 1) Any event or action which occurs after the submission of the Tender Offer document to the Office of the Securities and Exchange Commission ("SEC") during the Offer Period that causes or may cause severe damage to the assets of the Business, where such event or action does not result from the act of the Offeror or any action for which Offeror is responsible; or
- 2) Any action was taken by the Business after the submission of the Tender Offer document to the SEC during the Offer Period which results in a significant decrease in the value of the Business's shares; or
- 3) An occurrence of any event or action that may impact the Tender Offer as per the Notification of the Capital Market Supervisory Board No. Tor Jor. 14/2554 Re: Actions or Omission to Act which is Likely to Affect the Tender Offer of the Business dated 25 July 2011, (and its amendments).

#### 10. The Offer Period that Shareholders can Revoke their Intention to Sell

The Offerees can revoke their intention to sell shares at the office of the Tender Offer Agent on any business day from 4 June 2025 to 1 July 2025 (a total of 20 business days), between 9:00 AM and 4:00 PM. The offerees are required to follow the Tender Offer Cancellation Procedure in accordance with Attachment 2 Form B-1 and submit the Tender Offer Cancellation Form in accordance with Attachment 2 Form B-2 However, if there is an announcement of additional financial institutions holidays during the Offer Period that shareholders can revoke their tendered shares, the Offeror will extend the Offer Period that shareholders can revoke their tendered shares until such period is comprised of 20 business days as stated in the announcement of the takeover.

# 11. Allocation of Shares if the Tendered Securities are More or Less Than the Offered Securities (Applicable only to the Case of Partial Tender Offer in Relation to Clause 5 of the Notification of the Securities and Exchange Commission No. Kor Jor. 53/2545)

In case that shareholders wish to tender more shares than the number offered to be purchased, the Offeror will purchase only 153,641,557 shares, representing 10.00% of the total issued and paid-up ordinary shares of the Business.

The shares will be allocated on a pro-rata basis that the number of shares purchased from each shareholder will be calculated in proportion to the number of shares each shareholder has offered to sell compared to the total number of shares offered for sale by all shareholders.

If the shareholders of the Business have intention to sell more than 10.00% of the total issued and paid-up shares of the Business, equivalent to 153,641,557 shares, and the shares are allocated on a prorata basis as described above, any remaining ordinary shares after the allocation will be returned to the Offerees by the Tender Offer Agent using the original method of delivery. Specifically, for shareholders who tendered their shares through Thailand Securities Depository Company Limited ("TSD") for transfer to the securities company's trading account or the issuer account No. 600, the tender offer agent will return the remaining ordinary shares to each shareholder on the settlement date, which is 18 July 2025. For share certificates, the Tender Offer Agent will return the share certificates within 30 business days from the end of the tender offer period. Offerees may contact the tender offer agent at their office (details provided in Clause 13) to collect the returned share certificates. In the case of Non-Voting Depository Receipts ("NVDRs"), the tendering shareholders must receive the NVDRs from Thai NVDR Company Limited by submitting a request through the Thailand Securities Depository Company Limited ("TSD").

In the share allocation in proportion to the number of shares that the offeror intends to purchase from each shareholder, if the number of shares that are not offered for sale is a trading unit (board lot)

Form 247-4

(calculated of 100 shares), the number of shares will be rounded into a trading unit (board lot) by 1 unit (calculated of 100 shares): (1) in case that fractional portion is less than 50 shares, it will be rounded down to zero; or (2) in case that the fractional portion is equal to or greater than 50 shares, it will be rounded up to 100 shares. If the total number of shares after rounding exceeds the maximum number of shares offered, the offeror reserves the right to make appropriate share adjustments to ensure that the total number of shares purchased does not exceed 10.00 percent of the total issued and paid-up shares of the Business.

If the shareholders of the Business express their intention to sell shares in an amount not exceeding 10.00% of the total issued and paid-up shares of the business, equivalent to 153,641,557 shares, the Offeror will purchase all the shares offered for sale by the shareholders.

#### 12. Source of Funds for the Tender Offer

The funds required by the Offeror to conduct the partial tender offer for the Business's ordinary shares will amount to a maximum of 798,936,096.40 Baht. The source of funds for this tender offer comes from two financial institutions, as follows:

- Land and Houses Bank Public Company Limited a credit facility of up to 400,000,000 Baht. As of 14 May 2025, Land and Houses Bank Public Company Limited has issued a letter of financial support to TKC for this tender offer, to be used for the settlement of the securities acquisition pursuant to the tender offer. The validity period of this support extends from 14 May 2025 to 23 October 2025 (details provided in Attachment No. 8).
- 2. Kasikornbank Public Company Limited a credit facility of up to 400,000,000 Baht. As of 19 May 2025, Kasikorn Bank Public Company Limited has issued a letter of financial support to TKC for this tender offer, to be used for the settlement of the securities acquisition pursuant to the tender offer. The validity period of this support extends from 19 May 2025 to 31 July 2025 (details provided in Attachment No. 8).

The total credit facilities from both financial institutions amount to no more than 800,000,000 Baht.

The Tender Offer Preparer has considered the source of funds of the Offeror and views that the credit facility that the Offeror obtained from the aforementioned financial institutions is sufficient to execute the Tender Offer.

#### 1.2.1. Historical Background

Turnkey Communication Services Public Company Limited, or TKC, was established on 27 March 2003, by a team of engineers specializing in telecommunications and information technology systems with the objective of providing services in the design, system integration, equipment procurement, installation, testing, and maintenance of engineering systems across various sectors including telecommunications systems, data communication systems, and public safety systems.

In 2021, TKC was converted into a public limited company and was listed on the Stock Exchange of Thailand on 17 January 2022 to support a long-term business growth and enhance competitiveness at the national level.

TKC focuses on the development of advanced digital solutions such as Artificial Intelligence (AI), the Internet of Things (IoT), Smart Cities, Cyber Security, and Cloud Computing to support the country's advancement in alignment with the Thailand 4.0 policy.

In addition, TKC has expanded its business scope through strategic investments in partner companies, such as Beryl 8 Plus Public Company Limited to enhance its capabilities in customer relationship management systems, and Eastgate Tech Company Limited to support its ventures in educational technology and cyber security. With its accumulated experience and expertise. TKC has earned the trust of both public and private sector organizations in executing large-scale projects and commits to becoming a sustainable leader in digital solutions in Thailand.

#### 1.2.2. Brief Description of Business Operations

TKC operates a business providing services in telecommunications infrastructure, mobile network systems, and the development of various solutions to enhance the efficiency of foundational network systems. TKC has focused on providing services in design, system integration, equipment procurement, installation, testing, and maintenance of engineering systems using existing expertise in the following areas: (1) Telecommunications Systems (2) Data Communication Systems (3) Public Safety Systems (4) Digital Services (5) Educational Technology Platform Services (EduTech) (6) Clean/Alternative Energy Solutions (Green Solutions).

In addition, TKC focuses on advancing its position as a leader in Smart Solutions, which encompasses Smart Hospitals, Smart Buildings, Smart Farming, Smart Logistics, Smart Learning, Cyber Security, Autonomous Solutions, Smart Organized Communication Cables, Smart Utilities, Grids, and Intelligent Cloud Services.

TKC provides services to both public and private sector clients. These services are offered either as a prime contractor which wins the bid directly from project owners, or as a subcontractor which receives work assigned by the prime contractor.

TKC participates in tenders both as a single bidder and collaboratively with partners in the form of a consortium or joint venture, depending on the nature of the project, required expertise, scope of work, adequacy of financial resources, and strategic considerations for forming business alliances.

TKC's products and services are categorized into three main types as follows:

- 1) Turnkey Projects
- 2) Engineering Services, Maintenance, and Other Service Agreements (Service and Maintenance Agreement: MA)
- 3) Distribution Business

Details are as follows:

1. <u>Turnkey Projects</u>

TKC provides services on surveying, design, system integration, procurement, installation, consulting, and maintenance in turnkey project services. These services cover various sectors such as telecommunications systems, data communication systems, public safety systems, digital services, educational technology platform services, and clean/alternative energy solutions.

In general, the duration of project implementation ranges from approximately 6 to 9 months. However, the duration may extend to 1 to 2 years for large-scale and complex projects depending on the contractual requirements. TKC provides services in the following formats:

#### 1.1. Telecommunications

With long-standing expertise in the telecommunications sector since 2003, TKC has consistently provided communication system installation services, network quality inspection, and optimization for mobile networks from the beginning with 2G technology era to the current 5G era. TKC continues to offer design, procurement, and installation services for mobile communication systems utilizing 3G, 4G, and 5G technologies for base stations, wireless in-building coverage solutions for large-scale buildings, and improvement of mobile signal quality in Bangkok Metropolitan Region and various regional locations for works related to signal quality inspection and transmission network systems.

TKC has begun expanding its service into other communication-related businesses, such as base station battery replacement services and smart system solutions, leveraging modern communication technologies. These include smart building systems, unmanned ground vehicles (UGVs), telehealth systems, and smart farming. This expansion aligns with the growing adoption of Internet of Things (IoT) and 5G technologies, which are expected to play an increasingly significant role in the future of digital innovation.

Furthermore, TKC provides satellite channel rental services for internet connectivity. TKC acts as a service provider for the procurement and rental of high-speed internet channels along with services for signal enhancement, signal quality monitoring, and performance analysis reporting. TKC is legally licensed to operate as a Type 1 Internet Service Provider.

#### 1.2. Data Communication Systems

TKC began the data communication business in 2011 by providing services in design, system integration, procurement, and installation of network infrastructure for both wired and wireless data transmission within organizations such as Wi-Fi, switches, and routers.

In 2016, TKC launched Integrated Network Management System (iNMS) services, building upon its expertise in telecommunications and expanding into the enterprise customer segment,

especially large private sectors with the demand for upgrading their IP Core systems to enable faster data transmission within their organizations.

At present, TKC has advanced expertise in data communication services to include network systems that integrate devices and networks through Software-Defined Wide Area Networking (SD-WAN), which is expected to be a high-growth technology in the future.

Besides, TKC has shifted its business direction toward the development of Smart Solutions that cater to a wide range of consumer segments including:

- Smart Farming
- Smart Factory
- Smart Hospital
- Smart Home
- Smart Building
- Smart Airport

TKC has also researched and developed unmanned aerial vehicle technologies, such as drones for agriculture, logistics, and various service applications, which is an area of technology expected to see increasing necessity and demand in the future.

In the field of data technology, TKC has developed Big Data solutions to support a variety of business models, support strategic analysis, and effective data utilization and management. This is achieved by technology that meets recognized standards within the Technology Stack, including solution design, framework definition, and advanced data analytics.

TKC has a data analytics team that is ready to support all departments, including in the areas of data processing, ETL (Extract, Transform, Load), and the use of BI (Business Intelligence) tools for advanced analytics. The team is also capable of creating data solutions within the Big Data Ecosystem, encompassing both Data Warehouse and Data Lake, and can tailor these solutions to meet the specific objectives of each business type effectively.

#### 1.3. Public Safety Systems

TKC provides consulting, design, and installation services for communication networks, signal towers, switching systems, and base stations related to public safety systems building on its expertise in telecommunications systems and focusing on developing communication systems for disaster relief operations.

TKC began business in the public safety systems sector in 2016 to support services related to the design, installation, procurement, and implementation of public safety communication networks, such as 4G digital radio communication systems. The company started providing

services to the Royal Thai Police, which commissioned TKC to develop the Police Department's communication system, transitioning from the analog system (which used voice communication) to a digital system over a 4G network, enabling communication through voice, video, and data from a central system.

Besides, TKC also provides Web Intelligence systems, which can analyze online data to deliver efficient services to customers. Currently, TKC continues to expand its business in the public safety sector, with a focus on providing Cyber Security services to lead the field of Data Security and Network Security, as well as related systems such as Digital Trunked Radio systems, a comprehensive Cyber Security Operations Center (C-SOC) which includes services such as Cyber Threat Intelligence and AI Analytics, Cyber Security Consulting Services, and Smart Logistics systems.

Furthermore, TKC is also focused on expanding its business into the field of trust services and related services, such as providing Electronic Certification Authority (CA) services, document printing and delivery services (Print and Post), etc. TKC is responsible for designing and developing everything from the system infrastructure to software development, installation, system integration, and usability testing, and system maintenance. Related services in this domain include electronic Know Your Customer (e-KYC), Digital Signatures, electronic Timestamping, Document Workflow, Email & Electronic Document Storage, and e-Payment systems.

#### 1.4. Digital Services

TKC began the digital services business in the middle of 2022, offering digital solutions and acting as a supporter in the creation of digital solutions for business partners both within and outside the organization in various areas, including:

- Providing services for building primary Data Centers (DC) and Disaster Recovery Centers
   (DR)
- Designing, installing, and supporting the provision of Private Cloud services for government agencies
- Designing, installing, and supporting the provision of Hybrid Cloud services to support various applications and platforms for customers
- Offering Platform as a Service (PaaS), including custom development tailored to the specific needs of customers, such as resource management systems or education support systems

- Providing Call Center services to support post-sales services, offering advice, and resolving issues for customers with 24/7 Service Level Agreements (SLA) or as requested by customers
- Providing Network Operation Center (NOC) services to ensure system stability and reliability, supporting continuous connectivity
- Providing data communication systems to connect Internet of Things (IoT) devices to networks
- Designing, installing, migrating, and supporting the provision of Enterprise Resource Planning (ERP) systems to integrate data and workflows within organizations into a unified system
- Designing, installing, and supporting the provision of Big Data systems for clients to identify trends, behaviors, and hidden insights which can be effectively used for business decision-making
- Designing and developing Blockchain systems to meet specific business needs of customers

#### 1.5. Educational Technology

TKC has outlined its approach to expanding business in the educational technology field, especially in the areas of cybersecurity, skills development, and expertise in technology, communication systems, and information.

In recent years, TKC has collaborated with partners to organize digital technology training sessions and offer certificate programs in cyber security for personnel of critical information infrastructure in the country. These programs cover basic, expert, and executive levels (CISO), along with internationally recognized certification exams.

Additionally, TKC has developed a cyber security learning platform and a cyber range platform for simulation training.

Currently, TKC's affiliated companies provide training services and distribute access rights for assessment exams and certifications from international organizations. The company also offers online learning services and exam preparation for certification with instructors certified by the relevant certifying bodies of each organization.

Furthermore, TKC is a leader in integrating modern educational technologies, such as gamebased learning and the application of artificial intelligence in the learning process. TKC is also involved in the management of e-sports tournaments and multimedia sponsorships, as well as event organizing services, which can cater to both online and offline customer needs.

#### 1.6. Clean Energy Service Systems (Green Solutions)

TKC places strong emphasis on environmental sustainability aiming to minimize ecological impacts and support the advancement of a green economy. The company focuses on the use of renewable energy and has expanded its business into the energy sector, particularly in solar power systems (Solar Cells) and electric vehicle charging stations (EV Chargers).

TKC has been working with partners to develop products and provide services related to renewable energy. In addition, TKC has introduced solutions designed to reduce the carbon footprint of organizations such as efficient production process design, as well as supporting the development and trading of certified Carbon Credits in accordance with recognized standards. These efforts aim to enhance business value while reducing greenhouse gas emissions.

## 2. Engineering Services, Maintenance Services, and Other Services (Service and Maintenance Agreement – MA)

TKC provides engineering services including system operation and maintenance services across various projects to ensure clients can operate their businesses seamlessly. These services contribute to a consistent stream of recurring income for TKC. The details are as follows:

#### Drive Test and Mobile Network Tuning and Optimization Service

TKC possesses strong expertise in mobile network signal testing and optimization. The company has been recognized as one of the top 3 Suppliers by Huawei, with whom TKC has maintained a long-standing business partnership. Services under the Frame Contract specify clear parameters such as scope of work, service areas, number of personnel, pricing, and contract duration—most of which span a two-year period. As a result, revenues generated from mobile signal testing and network quality optimization have become a reliable source of recurring income over time.

#### System and Equipment Maintenance Services

TKC provides maintenance services for various systems and equipment, including telecommunications systems, data communication systems, public safety systems, and digital service systems. These services encompass the procurement and supply of spare parts, installation, inspection, and the implementation of preventive maintenance plans.

The average duration of maintenance contracts ranges from 1 to 5 years. TKC offers services during both the warranty period of projects it has installed and post-warranty periods upon customer request. Additionally, TKC provides outsourcing services under 24/7 Service Level Agreements (SLAs).

#### Internet Channel rental Services

TKC offers procurement and rental services for high-speed internet connectivity. The company also provides signal optimization, quality inspection, and performance analysis reporting. TKC holds a Type 1 Internet Service License and partners with satellite and internet network providers such as TC Broadcasting Company Limited and Triple T Broadband Public Company Limited (3BB).

#### Wi-Fi Optimization Service

TKC has expertise in providing Wi-Fi signal inspection services within buildings. These services include signal testing, analysis, and performance reporting to ensure adequate and effective deployment of Wi-Fi access points, enabling the resolution and improvement of signal dead zones.

#### • Expert Outsourcing for Mobile Network Systems

TKC assigns engineers and specialists to support client operations across various systems, including (1) Operations Support Systems (OSS), (2) Business Support Systems (BSS) and Operation and Maintenance Centres (OMC), and (3) RF Engineering. Services are tailored to the specific duration and requirements of each client.

#### Research and Development Services for IoT

For application in Smart Cities and other Smart solutions

#### Comprehensive Customer Service Systems

For supporting clients' business operations with continuity and efficiency, these services include a Call Center/Helpdesk that offers consultation, responds to inquiries, reports incidents, and logs technical issues related to clients' systems and equipment, 24 hours a day, every day. In addition, the company provides system monitoring and alert services through its operation center.

#### On-site Services

Providing installation and maintenance of systems at the client's location in both preventive maintenance and corrective maintenance

#### Maintenance Service Agreement

Providing the maintenance and support of clients' systems, including servers, network, and end-user devices. The service also includes service management, for accurately

tracking and handling incidents and service requests in accordance with predefined agreements. All services are delivered in alignment with the specified service level management (SLM) standards for each service category.

#### 3. <u>Distribution Services</u>

TKC distributes specialized hardware and software related to telecommunications systems, data communications systems, public safety systems, and digital service systems. The offered products are sourced from leading global brands with which TKC maintains established business partnerships.

#### 1.2.8. Ongoing Legal Disputes

On 30 June 2023, the Company is claimed by a public company as civil case to claim compensation regarding service agreement of 271 million Baht and forfeiture of collateral of Baht 24 million Baht. Subsequently, on 20 September 2023, the Company filed a counterclaim with the court in order for the court to consider the verdict dismissing the plaintiff's case and forcing the plaintiff to continue to be liable to the defendant for the collateral including interest.

On March 12, 2025, the TSC Joint Venture, which is a joint venture between TKC and Super ICT Company Limited received a letter from a government agency ("the Counterparty") demanding payment of a fine of 96 million Baht for late delivery.

On March 18, 2025, the Joint Venture issued a letter disputing the fine. The Joint Venture stated that the fine was incorrect and unlawful, clarifying that the calculation period was unfair as it did not account for the Counterparty's delayed handover of the site to the Joint Venture, and the method of calculating the fine did not comply with the regulations of the Government Procurement Committee (GPC). Subsequently, on 29 April 2025, the Joint Venture sent a letter to the Comptroller General's Department to appeal for fairness regarding the fine. In May 2025, the Counterparty sent another letter to the Joint Venture to proceed with the payment of the fine. Nevertheless, the Joint Venture responded with a letter disputing the fine, stating that the fine was unfair and unlawful.

Currently, the dispute is under consideration by the Comptroller General's Department's Board of Appeal. The company's executives and legal counsel believe that the company and its affiliates will not suffer any material damage and have already estimated the potential losses from this matter.

#### 1.2. Nature of Business

# 1.2.1. Historical Background

Advanced Information Technology Public Company Limited ("AIT" or "Business") was established in 1992 as a full-service information technology system integrator for government and private sectors. Later, AIT expanded its business to cover network system installation, specialized solution development, and continuous system maintenance services. With over 30 years of experience, AIT has developed expertise in complex IT projects and has become one of the leading companies in Thailand's Information and Communication Technology (ICT) industry. It was listed on the Stock Exchange of Thailand in 2003 under the abbreviation "AIT" and continues to focus on providing cutting-edge technology services to meet the needs of customers in the digital age.

#### 1.2.2. Nature of Business

The Business operates the business of providing integrated information technology and telecommunication services or System Integrator ("SI") and is the main business that generates more

than 70 % of the revenue by designing computer systems and computer communication systems to be able to work together effectively and efficiently in order to meet the work needs of customers with a service system consisting of computer hardware, software system application software, and computer network equipment. The Business has a turnkey sales approach, starting from understanding the needs of customers, consulting project planning, system design, installation, operation maintenance, as well as training to create an understanding of its use. The rest is a new business group focusing on basic engineering that extends the business on the existing customer base, such as building a power substation; in basic engineering on ICT lines such as wiring, conduits; and engineering of artificial intelligence, Big Data, and Business Intelligence (BI), such as Business analytical reporting.

The Business operates the SI business in accordance with 4 plans and structures, as follows.

1. Product Sales and Services of information technology and telecommunications and communication networks

A project work is the main component in doing a business, which can be divided into 2 parts, a project from auction and a project from direct sale. The Business pays close attention to the needs of customers and offers a technology proposal that customers can be ensured on the best advanced technology. The understanding in business and the attention in detail of the project are the key to success in delivering the project and satisfying customers. The Business has sales team and pre-sales team that are highly in skills to ensure all project proposals are clear and accurate for both the Business and the customers. When starting the project, the project management department is taking the responsibility to execute the project properly and completely. The project manager will organize the team of trained expertise and engineer. The entire team will operate the project in accordance with the plans and procedures that have been trained. These are the fundamental foundation that makes the Business becomes successful up until these days.

The Business operates the projects with a range of value from thousands to hundred thousand Baht, depending on the customers. At the present, the customer base ranges from medium company to large company, including the government agency and the state enterprise. After the completion of delivery and training, the Business will start after-sales service and system maintenance for the customers.

## 2. Support and Maintenance Services

The maintenance services are available in all aspects are flexible and diverse, by designing to meet the needs of customers with over 25 years of experiences in various fields, such as project operation design, server and software network maintenance, by implementing Information Technology Infrastructure Library (ITIL) system to integrate with operations to ensure that the Business can provide service with consistent.

## 3. Managed Services

Under the AIT Managed Services option for our customers will transfer their day-to-day management responsibilities to us as their strategic partner. This ensures improved, effective and efficient operations including production support, build and lifecycle maintenance activities. AIT Managed Services can be offered for certain defined parts or the whole infrastructure, such as

- Managed IT Service
- Managed Network Infrastructure
- Managed Security
- Managed Unified Communication and Collaboration

Maintaining the IT infrastructure has become a very complex undertaking, and the requirements placed on employees have increased considerably. Managing multiple vendors and integration partners is time consuming and often troublesome. A modern Managed Service company like AIT takes away the burden of undertaking this complex activity from our customers' valuable IT resources and ensures that they have a properly always performing infrastructure.

Today's customer demand for managed services has grown from being a forced purchase and not adding value to the business. However, the Business is working in a different way, by ensuring its customers' awareness of the benefits of having the right network as needed, which in turn can avoid downtime, which may affect the performance of the business.

This is to ensure appropriateness with the Business's operations and financial status, to increase flexibility in business expansion in various aspects, or to enhance the Business's efficiency and competitive potential in the future, with primary consideration given to the best interests of the Business.

#### Investment Expansion Plan

As of the date of the tender offer submission, the Offerors have no plans for the Business to significantly expand its investments beyond its normal investment activities. Additionally, within

1 year following the tender offer, the Offerors have no plans to expand investments for existing businesses. The Offerors will support the Business in carrying out its investment plans.

However, in the next 1 year from the end of the Tender Offer Period, the Offerors may suggest the Business to consider expanding its investment when having a business opportunity or investment opportunity that is suitable under the drive of the management and the Business's team. The Offerors will determine and study its current investment plan and provide appropriate advice on such investment plans, in which case the Offerors will ensure that the Business will comply with the applicable laws, notifications, and rules and regulations of the SEC and the SET.

#### Plan to Acquire or Dispose the Business's or its Subsidiaries Asset

As of the date of the tender offer submission, the Offerors have no plans for the Business to acquire and/or dispose of significant assets within 1 year from the end of the tender offer period, except for acquisitions and/or disposals of assets in the ordinary course of business.

However, if there are changes to the Business's operational plans to align with future business conditions that result in significant acquisitions and/or disposals of assets, such changes must be duly approved in accordance with the Business's policies and carried out in compliance with relevant laws and regulations, including but not limited to the rules of the SEC and the SET.

## Financial Structure

As of the date of the tender offer submission, the Offerors have no plans to significantly alter the Business's financial structure, other than through the normal financial management of the Business within 1 year from the end of the tender offer period.

Additionally, if necessary, the Offerors may recommend or collaborate with the Business to review and improve the financial structure to align with the Business's operations and financial status. This could involve enhancing the Business's competitive and investment capabilities or arranging additional financing at a level suitable for the Business's financial structure and business operations. The aim would be to avoid any adverse impact on the Business's performance or to improve competitive efficiency in the future, with a focus on the Business's best interests. The Offerors will ensure that any such actions receive approval from the board of directors and/or shareholders' meeting of the Business (as applicable) and are carried out in accordance with the Business's policies, relevant regulations, laws, and the rules of the SEC and the SET.

## Dividend Policy

The Offerors have no plans or policies to change the dividend payment policy within 1 year from the end of the Tender Offer Period. In the event that the Business has no need for funds for investment or expansion and has sufficient cash flow, the Business has a policy to pay dividends to shareholders of not less than 40% of the net profit as per the Business's financial statements, after deducting corporate income tax, legal reserves, and other reserves as required by law and the Business's regulations.

However, the payment of dividends may be subject to change and must consider various factors, such as the Business's performance and financial position, liquidity, business expansion, and other relevant management considerations. Additionally, the dividend payments mentioned above must be approved by the Business's board of directors and shareholders' meeting.

The Tender Offer Preparer has considered the plan of action following the partial tender offer and believes that the Offeror will be able to implement the aforementioned management policies and plans, and that there will be no significant changes or impacts on the operations and status of the Business.

# 2.3. Related Party Transactions

Related parties and transactions between the Offerors and persons under Section 258 of the Offerors and the Business according to the notes of the financial statements for the fiscal years ended 31 December 2022 - 2024, and financial statement for the three-month period ended 31 March 2025, are detailed as follows:

			Transaction Value (THB Million)

Within the period of 1 year from the end of the tender offer period, the Offeror expects that the existing related party transactions ("RPT") between the Business and the Offeror will continue to occur. The Offeror has no policy to change the terms of such transactions from the current ones. The related party transactions between the Business and the Offeror are shown in the table above. In addition, the Offeror has no plan to significantly change or amend the current related party transaction policy between the Business and the Offeror. The Offeror will continue to require the Business to adhere to the original related party transaction policy.

As of the date of the tender offer, the Business has established policies, procedures and procedures for approving related party transactions in accordance with the requirements of the SEC and the SET to prevent conflicts of interest in related party transactions between the Business and persons who may have conflicts of interest.

In this regard, the related party transactions between the Offeror and the Business and its subsidiaries will take into account the necessity and reasonableness of the material transactions. The Offeror will ensure that the Business and its subsidiaries comply with the Business's regulations, the provisions of the Public Limited Companies Act B.E. 2535, and the regulations, announcements, or requirements of the SEC and the SET, including compliance with the requirements regarding information disclosure, related party transactions, and the acquisition or disposal of material assets of the Business to the extent that the requirements are still applicable to the Business at that time.

For the Offeree who intended to tender NVDR, the Offeree will receive the NVDR through TSD from Thai NVDR Co. Ltd. after revocation.

## 7. Determination of the Offer Price

# 7.1 Methods of the offer price determination

The offering price of ordinary share of Baht 5.20 per share. The offering price has been adopted by an appropriate valuation methodology for AIT's shares by the Offeror, utilizing the Sum of the Parts (SOTP) method and the Market Price method. This valuation takes into account AIT's business potential, future profitability, and a share price designed to incentivize existing AIT shareholders to tender their shares to the Company. This approach aims to ensure the successful completion of the partial tender offer for AIT shares in alignment with the Offeror's strategic objectives. Based on this valuation, AIT's shareholders' equity is estimated to range between THB 6,274.04 million and THB 9,440.37 million, corresponding to a share price of THB 4.08 – 6.15 per share. The valuation assessment has been conducted by the Offeror's management.
